# CHASE NEWBERRY

**San Antonio, TX (willing to relocate) | chase@chasenewberry.com | 830-428-8264 | linkedin.com/in/chasenewberry | chasenewberry.com**

---

## EDUCATION

**Texas A&M University,** College Station, Texas — Aug 2025 – May 2029
*Bachelor of Science in Mechanical Engineering* — GPA: 3.69

- Honors Academy Minor, Engineering Honors Program

**Relevant Coursework:**

- Statics, SOLIDWORKS, Differential Equations, Python, Statistics, Mechanics, Electricity and Magnetism

## EXPERIENCE

**Revive Mechanical LLC,** Boerne, TX — Jun 2026 – Present
*Founder & Owner*

- Sourced, restored, and resold mechanical assets including bicycles, RC vehicles, and tools
- Utilized CAD modeling and 3D printing to design and manufacture solutions for clients
- Provided household services including small engine repair, gutter cleaning, and tree removal
- Managed full financial operations and client billing, generating $3,000+ in revenue across 13 client engagements

## PROJECTS AND CLUBS

**ASME Go Kart Project** — Sep 2025 – Apr 2026
*Frame Subteam Lead*

- Led frame design and fabrication using A513 carbon steel square tubing, coordinating with other subteams to accommodate drivetrain, steering, and braking systems
- Conducted FEA in SOLIDWORKS to optimize torsional rigidity and ensure safety while minimizing chassis weight
- Lengthened wheelbase for greater high-speed stability, resulting in 6-second faster lap times than competitors over a 24-second lap

**Texas A&M American Society of Mechanical Engineers** — Jun 2025 – Present
*Logistics Officer*

- Coordinated day-of logistics for weekly meetings and workshops, sourcing food and setting up event space on a fixed budget
- Sourced and ordered $5,000 in tools and equipment to build an organization workspace for Technical Branch projects, timing purchases with project timelines

**3D-Printed Brushless Motor** — May 2026 – Present

- Designed a completely 3D-printable outrunner BLDC motor from scratch
- Utilized an integrated-shaft design and toolless assembly process to keep build cost under $25
- Achieved a maximum speed of 12,000 rpm and a stall torque of 0.22 N·m at 12 V

**Texas A&M Cycling Team** — Jun 2025 – Present
*Treasurer*

- Managed team finances, including $20,000 in annual dues, University allocations, and sponsorships for 30 members
- Created yearly budget, planning payment and travel logistics for 6 in-state away races and 2 out-of-state national championships
- Processed member dues, merchandise sales, and reimbursements while maintaining ledger

**SKILLS: SOLIDWORKS, 3D Printing, Statics, FEA, Python, Excel, Kinematics, Additive Manufacturing, Rapid Prototyping, DFMA, Soldering, Preventative Maintenance, MIG Welding, Bill of Materials**
